

Superior HealthPlan (Superior) is committed to a partnership with its providers to help promote the right care at the right time and at the right place in order to promote quality health care and maximize the health status of its members.

As part of this partnership, this ACUTE CARE FACILITY OVERVIEW is being distributed to show each facility how they compare to the overall average of similar Superior providers. Acute Care Facilities with at least 300 claims during the reporting period will automatically participate and receive the report card annually.
